

My Property Log

Young Forest Observations

Use this log to keep track of sightings and observations from the young forest areas on your property. Record any plants, animals, fungi, weather events, etc. that peek your interest. See if you can find any trends or changes in your observations through time.

Date of Observation	Location of Observation	What did you Observe?	Description and Notes

Consider reporting your sightings to the Wisconsin Young Forest Partnership's iNaturalist project, Wisconsin's Young Forests
Details at <https://www.inaturalist.org/projects/wisconsin-s-young-forests>
